

April 18, 2024

Greetings People,

Ever felt like there are too many options on how to “do church” or “be church”? We could coin this as Vitality Paralysis. We have access to all the opportunities in being disciples of Jesus Christ. AND yet, how we connect to the priorities that are surrounding our congregations decide how effective we are as Christ’s disciples.

Join us on May 13th, via zoom, for the Vitality Paralysis Webinar. This will be a teach on how to read and utilize the MissionInsite Data of communities surrounding your churches. The Data provides demographic predictions, religious and missional priorities, and culture summations. As congregations engage with the CAT, we recommend working with MissionInsite as a companion to discerning next steps and focus.

Please be sure to [register](#) and list your congregation so we can prepare current statements for the discussion. Looking forward to our time together.

Peace and Courage,

Rev. Tara Spuhler McCabe
